Voice Therapy And Surgery

These are a list of clinical criteria that have explicit coverage for voice therapy or surgery.

Policy Issued By: [Amida Care](#)

Policy Title: [Clinical Guidelines and Coverage Criteria for the Treatment of Gender Dysphoria](#)

Voice Therapy And Surgery:

Requires supporting documentation that indicates procedures requested are medically necessary.

Policy Issued By: [Anthem](#)

Policy Title: [Gender Affirming Surgery](#)

Voice Therapy And Surgery:

Gender affirming voice modification surgery is considered **reconstructive** when *all* of the following criteria have been met:

1. The individual is at least 18 years of age; **and**
 2. The individual has capacity to make fully informed decisions and consent for treatment; **and**
 3. The individual has been diagnosed with gender dysphoria (see [Discussion](#) section for diagnostic criteria); **and**
 4. *For gender masculinization only:* for individuals without a medical contraindication or intolerance, the individual has undergone a minimum of 12 months of continuous hormonal therapy when recommended by a mental health professional and provided under the supervision of a physician; **and**
 5. If the individual has significant medical or mental health issues present, they must be reasonably well controlled. If the individual is diagnosed with severe psychiatric disorders and impaired reality testing (for example, psychotic episodes, bipolar disorder, dissociative identity disorder, borderline personality disorder), an effort must be made to improve these conditions with psychotropic medications and/or psychotherapy before surgery is contemplated; **and**
 6. Existing vocal presentation demonstrates significant variation from normal for the experienced gender; **and**
 7. One letter, signed by the referring qualified mental health professional* who has independently assessed the individual, is required; the letter must have been signed within 12 months of the request submission.
