

# **Trans Health Project**

Working for Transgender Equal Rights

# **Adult Surgery Checklist**

Use this checklist to ensure that each element is included in your letter. Use language that is client specific; do not simply copy this checklist.

## Identification of the procedure and diagnosis

- □ The client's general identifying characteristics (age, gender, etc.)
- □ The duration of the provider's relationship with the patient
- □ That the patient has gender dysphoria
- Procedure needed

# **Procedure-Specific Dysphoria & Related Complaints**

 $\hfill\square$  Include a narrative of gender dysphoria symptoms generally, and those that specifically relate to the procedure in question.

□ Any complaints of how gender dysphoria impedes their ability to perform activities of daily life

□ Any steps they have taken to alleviate gender dysphoria such as chest binding, makeup, wigs, prosthetics, etc.

- $\hfill\square$  Harms associated with not having or delaying surgery
  - $\hfill\square$  Example: Breast Augmentation

That the patient has had insufficient breast growth to alleviate their gender dysphoria
Any complaints that the patient has stated about the size and shape of their current breasts, misgendering, clothing, etc.

□ If breasts are atypical for a female, describe, e.g., size, Tanner stage, more like male gynecomastia (breast mass concentrated closer to the nipple);

 $\hfill\square$  Reference to size of the torso if the breasts are disproportionately small compared to their overall body

- □ Example: Facial Surgery
  - □ Discussion of the distress that is caused by having male facial features

 $\hfill\square$  Examples of being misgendered because of their face

Examples of limitations/impairment related to face dysphoria (anxiety in public, street harassment, employment discrimination, intimate relationships, etc.) caused by their face
Any steps the patient has taken to cope such as make up, headbands, wigs, hats, hairstyles, etc. and how that is insufficient

- Example: Facial Hair Removal
  - □ Dysphoria specifically related to facial hair
  - $\hfill\square$  Using makeup to hide beard shadow
  - □ Describe specific examples of impairment due to facial hair (how they are limited presently socially, school, physically, etc.)
- □ Example: Top surgery
  - □ Chest dysphoria
  - □ Binding, problems associated with binding
  - $\hfill\square$  Long-standing desire for surgery

### Statement of medical necessity

□ Explain that WPATH criteria for surgery have been met. (p. S258, Appendix D of WPATH SOC v8, available <u>here</u>) Address each point of the WPATH Criteria:

□ Gender incongruence is marked and sustained

□ Meets diagnostic criteria for gender incongruence prior to gender-affirming surgical intervention in regions where a diagnosis is necessary to access health care

□ Demonstrates capacity to consent for the specific gender-affirming surgical intervention

 $\hfill\square$  Understands the effect of gender-affirming surgical intervention on reproduction and they have explored reproductive options

 $\hfill\square$  Other possible causes of apparent gender incongruence have been identified and excluded

□ Mental health and physical conditions that could negatively impact the outcome of genderaffirming surgical intervention have been assessed, with risks and benefits have been discussed

□ Stable on their gender affirming hormonal treatment regime (which may include at least 6 months of hormone treatment or a longer period if required to achieve the desired surgical result, **unless hormone therapy is either not desired or is medically contraindicated**)

□ Indicate you recommend surgery

□ Use the phrase "medically necessary," which is generally defined in insurance policies simply to mean clinically appropriate care to treat a condition in accordance with generally recognized standards of care

□ Indicate if the surgery is undertaken for the purpose of treating gender dysphoria and will help to alleviate the person's gender dysphoria

 $\hfill\square$  If you have liaised with professionals from different disciplines within the field of trans health for consultation and referral, note that

□ If you have seen this surgery help other trans patients, note that

#### State the qualifications of the provider

Discuss your credentials as applicable. Omit things that do not apply.

- $\hfill\square$  Education and degree
- $\Box$  Licensure
- □ Length of time & experience working with/diagnosing trans patients
- □ Number/percentage of trans patients seen, if a significant part of your practice
- □ Continuing education in the assessment and treatment of gender dysphoria;
- □ Relevant professional associations
- □ Relevant publications
- □ Relevant trainings given, courses taught
- □ Consider attaching CV if a specialist
